

## Participate in research

Thursday 24 July, 2008

**Title of research project:** Airway inflammation in asthma

**Aim:** Investigate the factors that control how the airway surface of people with asthma regenerates and becomes inflamed, and how this is different from people who do not have asthma.

**Contact:** E-mail Dr Colin Solomon at [c.solomon@qut.edu.au](mailto:c.solomon@qut.edu.au) or call 3138 1427

### participant requirements:

- Healthy individuals. Participants with and without asthma are required.

### study involves:

- A 2 hour testing session (including a medical questionnaire and examination, allergy and breathing tests, and sputum sampling) at the Institute of Health and Biomedical Innovation, Queensland University of Technology, 60 Musk Avenue, Kelvin Grove.

Individuals with and without asthma are invited to participate in a research project investigating the biology of asthma.

You need to be healthy and be available for a 2 hour testing session (including a medical questionnaire and examination, allergy and breathing tests, and sputum sampling) at the Institute of Health and Biomedical Innovation, Queensland University of Technology, 60 Musk Avenue, Kelvin Grove.

You will be compensated for your time (**\$20 voucher for the QUT Bookshop**) and transport costs.

Please contact Dr. Colin Solomon via telephone: 3138 1427 or E-mail: [c.solomon@qut.edu.au](mailto:c.solomon@qut.edu.au)

*This study has QUT Human Research Ethics Committee (UHREC) approval Reference Number: 0800000179*
